

Date: 25th August, 2020

Ref. news item of ABP alleging deaths of two patients in Bongaon Govt. Hospital namely (1) Puja Debnath (Das) (2) Achintya Saha.

Report from Dy. Secretary, Health and Family Welfare Deptt. received who has forwarded the report of two Members Technical Committee (who enquired into the matter).

In respect of Puja Debnath the Committee opined that since blood count did not indicate dengue shock syndrome, the death cannot be considered as death due to dengue.

Regarding the other patient the Technical Committee opined death was due to Left ventricular failure (LVD).

I am of the opinion that matter be dropped in view of Technical Committee's report.
