

The deceased was arrested at around 20:00 hrs on 12/10/14. The arrest memo in relation to the physical condition of the arrestee. This was a serious lapse on the part of the officer preparing the arrest memo. On 19/10/14 the arrestee was supposedly examined by the doctor. That doctor was not interrogated. At around 17:00 hours on 19/10/14 the arrestee was found unresponsive. He ultimately died on 23rd October 2014. P.M. report goes to show that there ^{are} five injuries on the head caused by blunt weapon. The possibilities are as follows :-

a) He was beaten at the time of arrest which is why there is no mention in the arrest memo as regards his physical condition. The doctor on 19/10/14 may have given the report without examining the arrestee.

b) The arrestee was beaten between 10 A.M and 5 P.M. on 19/10/2014.

The report prepared by D.Y.S.P. does not answer any of the two questions. Therefore further investigation should be carried out.
